Safety First!

- We are now throwing rocks the full sheet, they are moving fast – watch out!
- Be aware of what is happening around you
- Catch rocks
- Remember rule #1 – the ice is slippery!

Review – Five Step Delivery

- Step 1 – The Approach
- Step 2 – Sliding foot to “reverse” heel-toe position
- Step 3 – Weight Shift to Sliding Foot
- Step 4 – Weight Shift to Hack Foot
- Step 5 – Slide

Step 1 – The Approach

- Approach hack from behind the hack
- Foot in hack (point toes forward)
- Step forward (feet are in heel-toe position)

Step 2 – Sliding Foot to Reverse Heel Toe Position

- 1) Elevate hips into a semi-crouch position (hack knee bent approximately 90 degrees).
- 2) Pull stone back directly in front of hack foot.
- 3) Move sliding foot straight back (Reverse heel toe position).
- 4) Pause and shift weight to sliding foot.

Step 3 – Weight Shift to Sliding Foot

- 50 to 75% of your weight should be shifted to your sliding foot.

Step 4 – Weight Shift to Hack Foot

Step 4 – Weight Shift to Hack Foot

- 1) Commence the forward motion of the stone by shifting some body weight forward on to the hack foot.
- 2) Maintain a semi-crouch position with the hack knee remaining bent at approximately 90 degrees.
- 3) As the transfer of the body weight proceeds, the upper body will continue to lean forward and gradually begin to drop down behind the stone.

Step 5 – Slide

- 1) Forward Motion
Transfer upper body weight forward.
- 2) Move stone forward.
- 3) Delay movement of sliding foot.
- 4) Move sliding foot forward.
- 5) Provide thrust with hack leg.

Step 4 and 5 take place *almost* at the same time

Review: The Grip – Hand Position

- The grip should be firm, but not a “death” grip.
- The fingers should be together on one side of the handle, with the thumb on the other side of the handle.
- Apply pressure as if you are “Squishing” the handle between fingers and thumb.

Review: The Grip – Wrist Position

- Wrist should be high and firm.
- Wrist should be in a “hand-shake” position.
- Palm of hand should not touch handle of rock.

Review: Releasing the Rock - Turns

- Picture the rock like a clock.
- Turn the rock so the handle is at 2 o'clock or 10 o'clock.

Review: Releasing the Rock

- Hold the rock in the 2 or 10-o'clock position until you let the rock go.
- When you let the rock go, turn the rock back to the 12-o'clock position.

Introduction: Line of Delivery

- Rocks will not travel in a straight line.
- Rocks will “curl” left or right, depending on the turn you put on the rock.
- The Thrower aims at the skip’s broom and slides in a straight line towards the broom

Introduction: Line of Delivery

- Sliding in a straight line is VERY IMPORTANT.
- You can slide in a straight line by pointing your hack shoe at the skips broom and making sure your shoulders and hips are “square” facing the broom,

Introduction: Line of Delivery

- The rock will travel on this line of delivery until it starts to “curl” (bend).
- A draw shot will curl (bend) 3 to 4 feet and a hit will curl (6 to 12 inches)

Week 5: Schedule

- 1) Review 5 Step Delivery
- 2) Demonstration of Line of Delivery
- 3) Practice Release with Grips and Curl
- 4) Drills
- 5) Mini Game – Full Sheet
